

The hunts will be each approx. 20 km through gently rolling countryside of the former chateaus hunting grounds. The hunt territory will be different from past years. This will be the first mounted hunt after the centuries in the area of Trebon.

On Sunday we explore the centuries history of our territory.

Spring hunting takes into account that the horses may not be in the top physical condition. Second field will be guided in slower pace and will by-pass the obstacles.

Proper hunting attire is requested, pink (red) or dark jackets.

All riders take part on their own risk.
